Additional financial aid based on income

Households earning less than 150% of the Area Median Income may qualify for additional aid for energy measures through one or more of the following programs. Please contact Garfield Clean Energy to determine your eligibility.

(Note: these programs are currently impacted by the federal funding freeze.)

ReEnergize Garfield County	Up to 100% of recommended measures
Energy Smart Colorado	Weatherization projects: 75% up to $2,000
Home Electrification and Appliance Rebates (HEAR) program	Heat pumps, electrification and associated electrical work: 100% up to $14,000

Residential customers: Start with a home energy assessment to prioritize measures and unlock rebates. Schedule your assessment at the GCE website.

Commercial customers: Schedule a free consultation with a GCE energy coach via the GCE website.

GARFIELD CLEAN ENERGY

For free energy coaching, or to apply for these and other rebates, visit www.GarfieldCleanEnergy.org or call CLEER at (970) 704-9200 ext. 2.
